

FEED MIX

Powder

An ideal Combination of Essential Nutrients
to Ensure Optimus Growth,
Production & Healthy Livestock

DESCRIPTION:

Protein, minerals, and amino acids are essential for the optimum growth of poultry, cattle, fish, and other living beings in addition to these, certain enzymes are crucial for the proper digestion of feed. Therefore, their feed should contain these nutrients and enzymes in adequate amounts and meet the highest quality standards Feedmix such a product that is rich in high-quality nutrients and enzymes

COMPOSITION: Each 1 Kg contains:

Crude Protein:	38.20%
Crude Fat:	1.75%
Fibre:	2.25%
Ashes:	8.70%
Lactose:	20.00%
Moisture:	5.9%
Ca:	1.05%
P:	0.76%
Na:	0.22%
Mg:	0.43%
K:	2.12%
Cl:	0.65%
Cu:	19.47 mg/kg
Zn:	42.00 mg/kg

Se:	0.71 mg/kg
Fe:	90.00 mg/kg
Me:	3127 kcal/kg
De:	3237 kcal/kg

Amino Acid Analysis:

Lysine:	2.67%
Methionine:	0.68%
Meth + Cyst:	1.22%
Threonine:	0.52%
Arginine:	2.76%
Glycine:	1.51%
Isoleucine:	1.92%
Leucine:	2.94%
Valine:	1.93%

Tyrosine:	1.30%
Histidine:	0.92%
Alanine:	1.65%
Phenylalanine:	1.80%
Enzyme Analysis:	
Total Unit/Kg:	12582300
Cellulase:	47.68%
Xylanase:	28.61%
Beta-Glucanase:	3.34%
Amylase:	3.34%
Pectinase:	0.33%
Protease:	14.30%
Lipase:	0.01%
Phytase:	2.39%

DOSAGE

Poultry 1 to 3 kg/ton of feed

Fish: 1 to 2 kg/ton of feed

Cattle: 2 to 3 kg/ton of head

ADVANTAGE

- Enhance growth and production by acting as a growth promoter
- Ensure better digestion by providing the necessary enzymes
- Prevents the growth of pathogenic bacteria
- Increase feed and water intake
- Promote better development of the digestive tract
- Reduce mortality

Presentation : 500 ml. & 1 Litre

Accurate formulation

VETCHEM
HEALTH CARE PVT LTD

An Innovative solutions provider company with quality services

Email : info@vetchemhealthcare.com

Website : www.vetchemanimalhealth.com

Customer No. : 9012079222,

COMPOSITION: Each Kg contains:

Vitamin E	6,25,000 IU
Vitamin D3	62,500 IU
Vitamin A	25 IU
Zinc	45 mg
Iodine	156 mg
Cobalt	2,130 mg
Calcium	80 gm
Manganese	312 mg
Iron	979 mg
Copper	2,140 mg
Phosphorus	300 gm
Amino nitrogen	75 gm
Lipases	50 gm
Invertases	25 gm
Proteases	50 gm
Amylases	25 gm
Phytases	25 gm
Cellulases	250 gm
Energy	1,000 Kcal

Directions For Use And Dosage:

Via Oral route and to be mixed with feed

Cow, Camel: 50 g to 100 g per day for maintenance and better milk production

Calf, Sheep: 25 g to 30 g per day for better weight gain OR 1 kg to 2 kg to be mixed in 100 kg feed

Indication :

- For Maintenance, better growth and milk production
- Better weight gain and enhances
- Reproductive Performance

STORAGE:

Store in a cool, dry place
away from sunlight and moisture.
Keep the container tightly closed after use.

- For animal feed use only.
- Not for medicinal use.
- Keep out of reach of children.

The Metabolic core of Animal Health

PROLIV

Liquid

A healthy liver in a dairy cow serves many important functions:

Glucose production/synthesis, detoxification of ammonia and production of antibodies. The liver acts as a blood cleanser, detoxifier and plays a pivotal role for the proper functioning of animal organism. If a liver begins functioning abnormally, what is the best course of action to take?

Decreased appetite, reduced feed intake, metritis, emergence of mastitis... an immediate approach to these issues often consists of using antibiotics or enriching the cow's diet.

PROLIV Liquid is an excellent combination of Vitamin & Minerals so giving the best result without any side effect. These are accurately formulated using quality ingredients to ensure the effectiveness and enriched with the power of Extract

Nutritional value each 100 ml. contains :

Composition:

Each 1000 ml contains:

Choline Chloride	200,000 mg
Liver Extract	12,500 mg
Yeast Extract	4,000 mg
Vitamin B1	250 mg
Vitamin B12	275 mg
Niacin	2,400 mg
D-Panthenol	250 mg
Inositol	3,500 mg

BENEFITS:

- Protects, Detoxifies, Stimulates and Activates Liver for X-tra Performance
- Provides right ingredients in right proportion for X-tra performance and profits

INDICATIONS:

- Keep Liver Healthy
- Protection from ill effects of toxin
- Supplementation in fatty liver condition
- Stimulates appetite by activating Intestinal peristalsis and the digestive process

DIRECTION FOR USE:

Cow/Buffalo : 20 to 50 ml daily for 5 to 7 days

Calves/Sheep/Goat : 5 to 10 ml daily for 5 to 7 days

Poultry : 1 ml/liter of water for 5 to 7 days
Or as directed by registered veterinarian.

PROMENT

Liquid

Herbal Bronchodilator, Expectorant And
Growth Promoter

Description :

PROMENT is the best supportive therapy in Respiratory disease of any origin as it favors soothing of the respiratory tract and faster recovery.

PROMENT mainly composed of Herbal extracts for soothing and of Natural essential Oils like Eucalyptus Oil, Thyme Oil, Menthol Oil along Cinnamomum which is cost-effective and highly useful in Respiratory problem in birds.

Eucalyptus Oil has Anti-inflammatory, Antibacterial, Antiviral, Anti fungal properties, Cinnamomum and Thyme oil has Immunomodulator effects. Menthol Oil has Antiseptic, Spasmolytic, Disinfectant action especially in broiler.

Composition : Each ml Contains :

Bromhexine HCl	20 gm
Menthol	20 gm
Thymol Oil	10 gm
Eucalyptus Oil	10 gm
Sorbitol	5 mg
Vitamin K	5 mg

DOSAGE:

IN BIRDS:

Drinking Water Application:

1 ml Per 1 to 2 litres of drinking water for 5 to 7 days

Farm Fogging Application:

200 ml to 400 ml per 5 litre of water per 5,000 Cubic Feet
Or as advised by Nutritionist/Veterinarian

BENEFITS:

- Natural Growth Promoter
- Birds relieves from respiratory troubles quickly
- Improves functions of respiratory system
- Birds relaxes well and takes normal quantity of feed to produce normal results
- Immunomodulator stimulates and boost immune response

PROMINO PLUS

Growth Promoter, Milk Yield Enhancer,
Egg Production Enhancer And Fertility Improver

PROMINO PLUS is time tested liquid feed supplement for poultry which offers all essentials well as nonessential amino acids & Vitamins. The poultry feed also requires chicken vitamins and amino acids.

Today, as the poultry farming has advanced, the demand for chicken vitamins and amino acids has increased excessively. The poultry farmers demand highly for chicken vitamins and amino acid supplements

Composition :

Each 1000 ml Contains :

Vitamin A	2,187,500 I.U.	Threonine	1.75 g
Vitamin D3	125,000 I.U.	Proline	2.125 g
Vitamin E	1,250 mg	Phenylalanine	1.50 g
Biotin	62.5 mg	Methionine	1.25 g
Alanine	2.5 g	Lysine	3 g
Arginine	2.625 g	Leucine	2.875 g
Aspartic Acid	3.5 g	Isoleucine	1.75 g
Cystine	0.5g	Histidine	1.125 g
Glutamic Acid	4.875 g	Glycine	3.25 g
Phosphorus	10.0 g	Zinc	10 gm
Calcium	8.75 g	Magnesium	8 g
Valine	2.125 g	Vitamin B12	50 mg
Tyrosine	1.25 g	Potassium	7.5 g
Tryptophan	0.25	Sodium	6.25 g

BENEFITS:

- Ideal Growth Promoter for all species
- Immunostimulant
- Useful in fattening period and weight gain
- Enhance Milk & Egg production and improves Egg size
- Influence positively egg shell quality
- Enhances hatchability
- Enhances reproductive performance by improving fertility and activation of ovaries
- Help to maintain optimum production for long time
- Vitamin Deficiencies

DOSAGE:

To be administered via feed or drinking water

Chicken: dilute 3 to 5 hours/day with 0.5 to 1 ml/liter of drinking water or 0.5 ml/liter of drinking water in the period of 10 to 15 consecutive days

Breeder: Dilute 0.5 to 1 ml/liter of drinking water for 7 to 10 consecutive days in every month

Layer: Dilute 0.5 to 1 ml/liter of drinking water for 7 to 10 days

Cow/Buffalo: 30 to 50 ml daily for better growth & production

Sheep/Goat/Calves: 10 to 25 ml daily for better

PROTOX

A Powerful Liquid Toxin Binder
& Anti Fungal Preparation

Description :

Mycotoxins have been detected in various food commodities from many parts of the world and are presently considered as one of the most dangerous contaminants of food and feed. Adverse effects of mycotoxins on animal health and production have been observed in farm animals such as poultry as a consequence of the consumption of high levels of cereals and oilseeds in the diet.

Protox is a high quality modern tool in Mycotoxin management. It is not only a strong toxin binder but also a toxin destroyer. The specific properties of the product inactivate the mycotoxins in the stomach of the animal through which they are no longer harmful for the animal.

Protox causes a redox reaction which bio-transforms the toxic structure of Mycotoxins. The result is a non-toxic metabolite which is harmless to the animals and can be easily excreted

Composition :

Each 1 Litre Contains :

M.O.S	50 gm
Benzoic Acid	20 gm
Acetic Acid	20 gm
Propionic Acid	20 gm
Citric Acid	40 gm
B.H.A	01 gm
EDTA	05 gm

INDICATION:

Protox is a synergistic combination of organic acids, natural preservatives, and toxin neutralizers that work together to promote gut health, inhibit mold growth, and enhance feed preservation

BENEFITS:

- Acts well on toxins and moulds
- Controls the pathogenic bacteria in the gut
- Increase the quality of water by reducing pH
- Helps for stimulation of liver, better digestion, absorption of nutrients
- Helps to increase renal function and purity of blood
- Helps to increase egg production in layers
- Helps for fast growth and more body weight in broilers

DOSAGE:

0.5 ml to 1 ml per liter of drinking water for 3 to 5 days
OR as directed by registered veterinarian.

Super Bio Pro

Powder

Balance of Intestinal Microorganisms to Improve
Digestion, Feed Absorption, Reduce Feed
Conversion Ratios & Lower Livestock Raising Costs

Super Bio Pro is an advanced, high-potency probiotic and multi-vitamin feed supplement scientifically engineered to establish an optimal balance of beneficial intestinal microorganisms in livestock. By modulating the gastrointestinal microflora, it accelerates enzymatic activity, enhances digestive health, and maximizes feed absorption. Designed to substantially improve the Feed Conversion Ratio (FCR), this formulation ensures maximum metabolic utilization of nutrients, accelerating weight gain and yield while drastically lowering overall livestock rearing costs and boosting farm profitability.

COMPOSITION:

Each 1 Kg contains:

Bacillus subtilis	$18 \times 10^9 - 22 \times 10^9$ CFU
Aspergillus oryzae	$18 \times 10^9 - 22 \times 10^9$ CFU
Lactobacillus acidophilus	$18 \times 10^7 - 22 \times 10^7$ CFU
Saccharomyces cerevisiae	$18 \times 10^9 - 22 \times 10^9$ CFU
Vitamin A	1,000,000 IU
Vitamin D3	150,000 IU
Vitamin B1	250 mg
Niacinamide	200 mg
Folic acid	100 mg

INDICATIONS:

- Increases beneficial bacteria population and stabilizes intestinal flora
- Restricts harmful bacteria, prevents intestinal diseases
- Reduces feed conversion ratio Increases growth rate and productivity
- Improves resistance to diseases

DOSAGE AND ADMINISTRATION

Chickens, Ducks, Quails: 1.5 g per litre of drinking water or 3 kg per ton of feed daily
Cattle, Goats, Sheep: 1 g per litre of drinking water or 2 kg per ton of feed daily

CONTRA-INDICATIONS

Do not use in combination with antibiotics
